MINI SPLIT CHECKLIST:

When used for extended periods of time, your Mini Split unit will begin to accumulate dust and dirt inside, reducing its performance.

Rescomm recommends that the unit be inspected regularly, cleaning the twice a year.

1. **Clean Intake Grille** of any dust and build-up.
2. **Clean Air Filter** of any dust and build-up to improve units operating efficiency and decrease noise.
3. **Test** for proper air flow.
4. **Test, Secure, and Tighten** all electrical connections and terminals.
5. **Air Sweep Electric Parts** to improve air quality and extend the life of electric parts
6. **Clean or Replace Filters** to reduce energy use, reduce compressor strain improve indoor air quality, and improve comfort. Please Note: replacement filter must be on the jobsite.
7. **Check Supply & Return** for Obstructions to ensure optimum operation and to avoid fan motor overheating
8. **Tighten Electrical Connections** to ensure uninterrupted system operation
9. **Provide customer with written analysis** of any recommendations that we may have.
