GENERAC® GENERATOR TUNE-UP CHECKLIST:

To keep your standby generator ready when you and your family need it the most, **Rescomm PHC Inc.** will complete the following:

Engine:

- Check oil level
- Check, clean, and lubricate linkage
- Check for leaks, noises, and vibrations

Starting Battery:

- Check voltage
- Clean and tighten terminal connections

Cooling:

- Clear debris that could inhibit air flow

- Clean intake and exhaust louvers
- Exterior maintenance

Wash Enclosure:

- Check condition of base or pad

Electric System:

- Check output voltage/frequency (no load)
- Tighten generator connections
- Check all generator fuses
- Check transfer operation
- Tighten transfer switch connections

Fuel System:

- Check fittings and connections for leaks
- Inspect flexible fuel line
- Verify proper gas pressure

Exterior Maintenance:

- Wash enclosure

ATTENTION:

Your **Generac** Generator **MUST** be serviced **every 8 days of runtime** in order to keep your unit running properly and efficiently!
